

At our schools, under the responsibility of ISS (Integrated Services Solutions) all necessary actions are taken primarily to maintain clean, hygiene environment with healthy conditions, and to prevent, control and manage potential infections.

To achieve this, we implement a series of planned routine cleaning and hygiene practices at our schools. These are conducted:

- On a daily basis at certain interval,
- Weekly,
- At the end of each academic term,
- During summer breaks,
- In case of infectious or contagious disease,
- During pandemic conditions.

These practices follow a specific routine tasks, which include waste collection, dirt removal, area and space cleaning, washing, etc., in various parts of the school such as;

- Classrooms,
- Garden,
- Gymnasium,
- Music Rooms,
- Educational Classrooms,
- Cafeteria,
- Restrooms.

The materials used and the plan set for these tasks are listed in the table below. These products are approved by the relevant authorities, and disinfectants are used with the approval of the school management. Necessary certifications and documents are provided to the school administration. The disinfectants used are rotated monthly.
